

# SMS Library is Your Resource Connection!

The New Year brings Spring and research papers! The St. Monica library is prepared to help. Our school subscribes to EBSCO and World Book Online reference centers. Accelerated Reader QuizList Interactive is now a member of our reference trio.

We hope families will use QuizList Interactive, EBSCO, and the World Book Online Reference Center often to help with their homework, special projects, and at-home learning. Information at the tip of your fingers-24/7!

*QuizList* allows you to search for books with AR quizzes. You may search by title, author, subject, lexile, or book level. Enter search information then select the "Get My List" button or press enter. A list of books will display. Brief descriptions of books, number of pages, call number, etc. are available by clicking on the book title. You can even rate the book from this screen if you like.

## WORLD BOOK ONLINE

*World Book Online* includes all articles from the 22-volume World Book Encyclopedia print set plus thousands of additional articles, pictures, maps and media, and research guides. Information is updated daily. NASA has chosen World Book as the provider of encyclopedic content for its website.

*EBSCO* offers both History and Literary Reference Centers, along with access to non fiction and reference books, history periodicals and documents, biographies, magazine and news articles/videos. You can use EBSCO to research favorite authors and books as well as help with research topics and citations.

To access these sites, follow these simple steps:

1. Go to the St. Monica Website [www.stmonicaschool.org](http://www.stmonicaschool.org)
2. Select Library
3. Select EBSCO, World book On Line, or QuizList Interactive\*
4. In the Login ID box type in: **stmonica**
5. In the Password box, type in: **research**

\* login or password not required.

EBSCO and World Book Online are trusted sources. You can feel comfortable that the sources of all documents pass rigorous standards for academic research. Unlike a general internet search, an EBSCO or World Book search will result in documents tailored for the academic environment. Children will not be subjected to opening numerous web sites that are not applicable to his or her topic.
